

Mephista Carpino

February 15, 2006 - May 10, 2021

Mephista came to us through a friend of the wife of a co-worker, who was fostering her. She nicknamed her "Stinker" because she already had 3 cats and could not take on another. She was a beautiful sable and white polydactyl with a fluff undercoat and her feisty personality was as big as our love for her. She will be greatly missed.
