

## Ahia Kaufman

April 18, 2004 - July 26, 2021

SEVENTEEN years ago Ahia joined our family. Buckeye no longer had our undivided attention and he didn't like it at all. We traveled from Ohio to Texas with him rejecting her the entire way. The moment we entered our home in Rancho Viejo Buckeye changed his attitude and seemed to joyfully welcome her to her new home.

She had a hot temper right from the start. If she gained access to something she knew you didn't want her to have she would rip your hand off to keep it. Even if she didn't necessarily want it! But in a heart beat she could be the sweetest little lady ever. She would look at you with those beautiful eyes and melt right into your heart. For the rest of her life she was that sweet little girl who loved a good tropical breeze in her face.

On her walks Ahia had a favorite palm tree she wanted to "claim as her own". She would sniff...then in one smooth e move...throw her hind legs as far up that tree as she could reach...then "CLAIM IT".

Once in a while she would escape the house stretching her body like a greyhound to enjoy her freedom while she had it. One particular escape was in the middle of a very busy highway with me in chase to stop traffic yelling "DO YOU WANT A TREAT ! DO YOU WANT A TREAT !".

Ahia would let you know at the same time every evening when it's time for bed. She kept better time than any clock. She never in her lifetime ever barked at a cat or any other animal .... except a passing dog. Until just recently she would rather burst than potty in the house. She loved a strong

wind, traveling in our motor home, and slow walks. Literally stopping to smell the roses.

She dealt with pancreatitis, dementia, loss of hearing, loss of sight, and loss of appetite. She lost so so much weight. We did everything in our power to help her.

We believe Buckeye was there to welcome her as she crossed rainbow bridge just as he did in the very beginning.

WE ALEADY MISS YOU BABY GIRL!

“ So sorry for your loss. Glad you had the opportunity to have her as your own. I know you have precious memories and I hope they become less painful each day. {{{ HUGS }}}

“ Well at least one of the busy high ways that she crossed was at my home on St.Rt.161. She was like grease lightning and out of reach in a second. My Jake always got along with your dogs and Jim's also. Must have been a yorkie trate. I will miss her also. Love and Hugs to you all.
