

## Annie Garner

April 30, 2014 - December 6, 2023

Our Annie won my heart when we went to pick our chihuahua puppy out of the litter by laying her sweet little head under my chin and snuggling in for a cuddle. She had an adorable perfectly heart shaped patch on her little head and was always the best little snuggler. She made the best surprise ever to her human siblings the day she joined our little family. She had so many nicknames in her 10 years with us, some of our favorites were Squishy, Nannie, Moopie, Shmoopie, Nan and Piggy because of her cute little snorts. She was a great big sister to her little sis Fern. She was always happy to provide herself as a pillow for nap time or join in a little friendly playtime. She loved her basket full of squeaky's to play fetch with and often enjoyed a nice bully stick or DQ pup cup as a treat. She brought an immeasurable amount of joy to our home and will be missed so much by her pup sis her human brother and sister and her mom and dad as well as many favorite Aunts, Uncles, cousins, and friends. She was so loved by everyone who met her.
