

Arthur Bowman

April 29, 2008 - August 16, 2020

Arthur was the most resilient boy. He beat cancer in 2014, was diagnosed with diabetes in 2019, and was diagnosed again with cancer in June of this year. Throughout it all, Arthur was the sweetest, funniest, and most loving cat. He never complained about his medications, and consistently charmed all of his veterinary team. At home, he was the first to greet you at the door, and was always a little shadow following you everywhere. Arthur was truly one of a kind, and was deserving of even more time to sit outside in the sun, near his favorite patch of catnip. The time we had with you will never be enough and we will miss you always.
