In loving Memory of August

We lost our Berner boy Augie Monday June 3, 2019 in the early morning. He passed peacefully. He was a wonderful (somewhat crotchety) 10+ year old - but still had some spunk with the pups. He will be greatly missed! We know that he is running at the Bridge with Timber and Cledus. The 3 Amigos are together again!

Augie enjoyed swimming, pontoon boating, camping, beach walking, mountain trail walking, and nose butting us. Always vying for attention and sneaking up under your armpit when you were sitting down or the back of your knees. Trying to walk over him was always a challenge - he bolted upright every time. When the puppies came home (Remi and Ryder) - he was a great ambassador to them. Trying to teach them some manors and how to lay on the floor to get maximum coolness (and less walkway for us). We had the honor of escorting him on 2 Senior Parades at the National Bernese Mtn Dog specialties. So proud he reached double digits and didn't suffer greatly with old age. He will be missed by Remi, Ryder, Ruby, Mom, and Dad.

We love you funny boy.
