

## Baby Girl Saylor

June 1, 2002 - June 26, 2020

Baby Girl was truly our child. She was the runt of her litter and had to be bottle fed. Only way she would eat was if you held her on her back just like a baby in your arms. Over the years she touched many lives and was loved by all. Baby Girl really loved being around babies. Always had to check on them and would lay on the couch just right so they would not roll off. Even after being bit by another dog and going through surgery, Baby Girl was always playful and loving. She is our Beloved Family Member who will be remembered by all who met her.
