

Butch Bowlby

December 13, 2021

Butch found his way into our lives as an abandoned shelter dog needing foster parents as the world went into Covid lockdown March 2021. Shortly there after, he became a permanent member of our family. He was loving, handsome, smart, affectionate, silly, playful, tough, demanding, and grumpy - what more could you want? Though his time with us was brief and cut far too short, he made a lasting impact on our lives and all who got to meet him. We will always love and forever remember our Butchie.
