

Callie Ferguson/Johnson

May 16, 2017 - June 5, 2023

Hannah and I shared Callie. She loved to sleep under the covers and if she wasn't under the covers she slept on your head. She was so sweet and good natured. She was like our child. She was Hannah's kitty and she gave her to me and when I moved she took back since I could only have one. I have her sister, Socks. She never forgot me. When I would go to Hannah's she would come to me and if I stayed all night she slept with me. She loved to lay on the back of the sofa and sleep or look out the window. She loved her Temptation treats. She loved to play with her toys especially a little red fluffy bird and little mice. Her and Socks would play with each other until they worn themselves out and then they would take a nap. If she heard a strange sound she would sit up on her back legs and look around with her ears up. She was so cute when she would do that. If you open a can of tuna fish she would be right by your side before you even got it opened. She was a very sweet lovable kitty. We will miss her so much. We love her and will never forget her. Love you Callie. Hannah and Ruth Ann
