

## Carley Roo Pepin

October 15, 2005 - December 16, 2019

Carley Roo Pepin was the light in so many people's lives. Although she had a rough start to life, Carley had more than 13 years of life with a village of people who loved her.

Her final two options for an epitaph were "A great dog; a perfect friend" and "Baddest b\*\*\*\*" because she was very much both of those. She loved life and people, just as happy swimming in the ocean as she was to curl up on a couch for a Saturday afternoon as long as she had people around her. She was also full of sass and attitude, anyone knew what she was thinking and she would happily work her magic to get her friends to do what she wanted.

She added to joy to so many lives. She loved to carefully open wrapped gifts, open Diet Coke bottles, play fetch, harass mail delivery personnel, travel the country, and lay with anyone on the couch for hours.

Carley is survived by her mom, grandpa, aunt/little mate, step dad, dad, grandparents, step grandma, so many aunties and uncles and friends. She is predeceased by her grandma Mary and her uncle Rory.
