

## Cassidy Vaughn

April 20, 2006 - February 24, 2022

When Cassidy found us, I was just seeing who was at the shelter. I looked through all the rows and no one seemed interested. As I turned to leave, I heard this tiny little bark. She was behind a rope they had cordoned off. She made her choice. She found her human. We took her home and kept her in the family her entire life. Through a back injury that paralyzed her and rehabbed back to function to the arthritis that set in, she was my baby. She will be so very sorely missed.
