

Diamond Kittell

July 10, 2013 - April 7, 2020

Diamond was a beautiful dog with much kindness in her heart. She loved absolutely everyone, but she had her few favorites of course. One of those was my boyfriend. One day he was over helping with a car and we were taking a break. He was sitting in a chair and she was laying at his feet, he scratched her back and she stood up spun around and looked at him so he scratched her back again. He stopped and sat back and she spun around with the same look as if to say "do it again!" She always got so so excited when he would come over or when I would get back home from school. She would jump around and spin and her tail would just go crazy. I do photography and whenever the camera would click she would get the zoomies and go absolutely nuts. It always made me laugh. She had a Diamond shape on her back which is how she got her name. She was so special, my diamond in the rough. She was my best friend.
