

Diana Kouns Lewis

November 1, 2005 - December 18, 2019

Diana was the most loved and social fur ball. She enjoyed being around people and was always looking at you as if she was part of the conversation (and often was!). All of our friends and Paradygm Shyft band mates adored her. She was an inspiration to all of us having had hindquarter paralysis some four years prior that she fought through with rehab and supplements to be able to walk and run again. We were there with her at her last breath and we continue to grieve. She is now with Motown and Avgie across the Rainbow Bridge in a better place. We are eternally grateful for Schoedinger in managing our pet's passing and the opportunity to memorialize Diana in such a caring and conscientious way.
