

## Elmer Fudd Kellough

January 23, 2021

Elmer came into my life when I needed him the most. He save me more than I could ever imagine. Elmer truly was my best friend & my sidekick. He was there through all my hardest times and brought the light into my life that I needed. He helped me love life again. Elmer kept my feet warm every night, would headbutt me awake every morning, was the most excited to see me come home from work everyday with happy feet, and loved our ice cream dates or lunch dates for McDonald's fries. Losing someone so important in your life is something you're never prepared for, but I know Elmer is safe with his bother Rocky in Heaven; free from al his health problems, safe from mean animals, running around free of pain with his ears flopping around like when we played in the yard. I will never stop loving and missing Elmer, he will always be my baby and best friend. Nothing will ever fill his spot in my family or my life. I will carry him in my heart and by my side, every day. Elmer Fudd, my old man, I love you so much. No words will ever describe how thankful & grateful I am for you.
