

## Foster Baucher

August 8, 2018

Foster Marlow Baucher, the constant companion and fur-baby of Amy L. Baucher, brought an endless amount of love and joy to his mother's life as well as to all her family members. Over his 15.5 years, he was the 'Grandpa' to all his fur-cousins and was part of the neighborhood's "3 Amigos," which included his dearest and late friends Ringo and Cricket.

However, it was his friendship and loyalty to Amy that will be truly be remembered. He was her best friend through the struggles of becoming a 'real' adult. He was the force that got her get out of bed when the depression was a bit too much to bare. He moved with her from apartment to apartment, city to city, and lasted longer than any boyfriend, probably because he knew when to simply be quiet and just cuddle. The plain and simple fact is that he made her smile... Every. Single. Day. It is HIS journey on this earth that she is so grateful and lucky to have been a part of...he may not be there on her wedding day but he'll be there smiling with her mother in spirit and in her heart....forever. ♡
