"A Love Letter and Sweet Good bye for Ginny"

You earned a place in my heart at first sight. You jumped up licked my face, reached up, snatched my sunglasses and took off running with them. From that point forward you became my Ginny Ruth and I became your Grandpa. When your Grandma brought you home, it was so we could hunt together. I was afraid to take you--one of the fools I hunted with shot a pig by accident once, and you were too precious to risk. You have given us years of love and devotion and our lives were enriched by your joy and antics. We will always be better for having had you in our lives. May you be free of ills, run the grasses and remember we loved you always.

Our Love Always,

Grandpa, Grandma, Kallie, Little Brian & Asher
