

Grayson Sitz

July 3, 2023

We were blessed 11.5 years ago when a beautiful tiger tabby cat chose our patio and adopted us as his new family. This sweet boy had been abused and neglected. With no fur on his neck or chest and terrified of males, he became a purr machine and lover of all people. He learned to trust us and felt safe. Allergic to everything but fish, his fur grew back with the right diet and he was so handsome. He was super smart and loved to be included with the family. He would look out the window and watch as his "brother" cat went on walks with me every night. One night he meowed and stood at the door. He wanted to go on a walk too and so we did. He was so proud of himself! Our hearts weren't ready to let him go. He should have had many more years, but cancer doesn't play fair. We were so thankful to have Grayson in our lives and take comfort that he is now out of pain. Love you, Grace-Grace!
