

Heidi Steigerwald

March 13, 2011 - August 22, 2024

Heidi was born March 13, 2011. Six weeks later she became a Steigerwald. Out of her 13 years, 5 months and 9 days on this earth, she'd been the source of laughter, happiness, love, kindness, and sometimes mischief. As a puppy she ate trays of brownies by knocking them off the counter, she chewed up remotes, cell phones, wires, even a whole buckeye necklace! (Not the chocolate kind) But she has brought light to our family since she became apart of it. She was Hero #846 in the Morris Animal Foundation study of 3000 Golden Retrievers. She has left a mark on more than just our family and we are thankful for that opportunity and years of memories she gave us. Her smile will always be present. We know once she gets across the rainbow bridge, her pain will be gone and she'll look for the closest pool to swim in. 💔

RIP Heidi-who If you would like to learn more about the study that Heidi was in and how it is helping to change pet health or would like to donate in her honor, you can do so here - <https://www.morrisanimalfoundation.org/golden-retriever-lifetime-study> -The Steigerwald Family
