

## Jade Connery

May 3, 2010 - October 6, 2019

We got Jade when she was 9 months old and she was so frightened. She didn't leave her bed for three days. She soon warmed up to us and became the most loving affectionate pet ever. She loved to sit on my lap and sleep and later in lie at the bottom of the stairs. She would scratch her paws at your face to show affection. She was such a gentle soul, would never harm anyone as she was so timid. Two months later and I still miss her terribly. She was my little lady and I will never forget her.
