

Jordan Flemon

October 20, 2001 - April 8, 2018

Jordon passed on Sunday, April 8, 2018, after being diagnosed with congestive heart failure. He was sixteen and a half years old and a strong-willed fighter. His doctors had given him up 3 years ago. Jordon proved them wrong.

He was a beautiful, smart, and on occasion, stubborn. Jordon was a chosen companion and he knew just how special and loved he was. Jordon gave much love and many kisses along with barking or jumping on top of you to get your attention.

He loved his Build-A-Bear Collection, Donatos, and his Grandma's home made spaghetti.

If you ever met Jordon, you would not forget him. To have known him for all those years was such a joy. He is missed. So much so that at time sit seems so unbearable. Jordon was blessed to have the greatest care giver/companions in the world (Chris and John) who truly loved him. There was nothing Jordon could not have.

He was the cleanest dog in the neighborhood.

Special Thanks to:

OSU Veterinary Hospital

East Columbus Veterinary Hospital

Dr. Calvin Washington and Staff (The Greatest)

The many Family, Friends and Pastor who prayed for healing for Jordon
