

José Joaquín Foster

February 12, 2007 - April 15, 2021

I never really liked Chihuahuas. That is until I met José. We made an instant connection and I rescued him from a neglectful situation. He was the Chihuahua that I never knew I wanted. In 14 years we went through a lot together. Good times and bad, he was my one constant, my Little Puppy Sunshine. He beat cancer in 2015. The past six years with him has been an amazing gift. A year ago his heart started to fail him. I would have given him mine if I could. When it became apparent that his heart could no longer support him, I had to make that awful decision...I held him close as his doctor helped him on his journey to cross the Rainbow Bridge. He will always live in my heart. ♡
