

## Kitty "Simba" King

August 1, 2005 - April 9, 2021

Kitty was a very unique cat. Sometimes I think she thought she was a dog. Examples are she would meet me at the door everyday that I came home. She did not like strangers, she would scratch them, bite them and sometimes "hiss" at them. We got Kitty back in 2005 because my son Daniel and his wife Lisa bought her to me and made sure my youngest son Robby saw her, so we kept her. She was a spoiled cat, she had to have ice in her water or she would sit there and stare at you with "meows" until you added her ice. We loved her so much she was a member of our family. There will not be a day that goes by that I don't miss her and love her. We will never forget her.

“ There are so many memories of her it's unreal. For 16 years she was number 1. It was her way or else. I love and miss her so much my heart hurts that she's gone. Life is so unfair but at least I loved her for along time and I'm happy that I was able to have her in my family for as long as we did rest in peace kitty I'll love you for the rest of my life.
