

Lay'la Lee Lee Bitting

February 4, 2025

Lay'la Lee Lee Bitting

Lee Lee was 1 out of 8 puppies, she was the runt of the litter, but the smartest and the fastest. She was a fine lady. Lay'la love her belly rubs and she enjoyed eating her food in private, on top of the cage looking down on the other dogs. She would get so excited and jump on the couch and then jump on the cage happy to eat her food. Lee Lee love going outside and playing catch with tennis balls, jumping and outrunning the other's dogs, she was really fast, lol. Lee Lee loves her baths and a fresh clean hoodie and clean covers and her toys. Sweet pea wasn't hard to please, this all makes her very special to me, Pea Pea was my sidekick and my shadow. She loved her late night snacks, my Cheeto puffs were her favorite, Lay'la would be all the way downstairs and could hear me when I opened a bag of puffs and run upstairs just to watch me eat them, lol, and forward to me giving her some. Sweet Pea always kissed/licked me when I gave her food, water, as if she was thanking me all the time. Lee Lee loved her attention, she would always come up to me and lay her head on my chest and look straight into my eyes. She would sit on the back of the couch. Sweet Pea I will carry all our great memories we had 7 years shared close to my heart Pea Pea I wish we had more time with you.

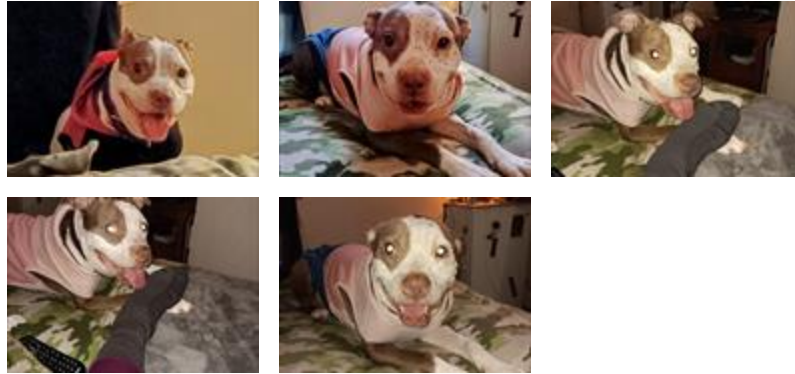

Sincerely,

Grandmama Glo

Leelee was one of the most beautiful breeds of her litter she was wobble as the runt but shy & she loved her snacks. Always looking out for the rest of her family, she was very obedient as she adapted to all around her, she didn't take any meds even though she was the smallest she was the smartest.♥♥♥rest up in doggy heaven & continue to protect your mom..Lu-Lu love & miss you gurl. The RED 🙌
___ love aunt Na
