

Little Livie Havens

March 3, 2021

Livie adopted us in 2011 and we are so happy she did. She was filled with so much love, light, silliness, and cuddles; with a belly that instantly made you fall in love. She loved curling up next to those she loved most and getting long belly rubs, and swatting your hand if you stopped before she was ready. Her silly spirit always filled our days with laughter whether she was mad at her tail, ejecting herself from the litter box, or making her silly robot face on a good butt scratch. We are so lucky to have shared her life with her and will cherish these memories forever. We are so heartbroken with the loss of our sweet little Livie, but find comfort in knowing that she is forever in our hearts, with her sister Bella, and getting lots of belly rubs.

We love you, little girl.
