

Louanne "Lulu" Mattson

January 4, 2008 - June 13, 2018

We fell in love with Louanne in December 2015 while she was at the Toledo Area Humane Society. We weren't able to adopt her because she had gingivitis that wouldn't get better. In February 2016 they let us bring her home through their foster to adopt program, with the possibility of never being able to adopt her. However, in March she was medically cleared to be adopted. She instantly made the perfect addition to our family. Everyday we miss seeing her tongue hanging out, and her licking us or kneading our stomachs. We now have a void in our hearts and in our family. We love you, Lulu!
