

Lucy Hewitt

May 31, 2002 - May 27, 2020

I've had Lucy since she was 3 months old. She was such a cutie. She loved me, we use to call her our Ankle Biter. If anybody came around me that's what they would get. She really did not hurt. She lost her sight a few years ago, but she could still find the water and food. This last year she became very confused. She did not know where she was. It was so sad to watch, but this May we lost her at 18 years old. Bye Angel
