

Luna McDowell

May 26, 2023

We fell in love with Luna the moment we met at the shelter. I knew immediately that she would be one of the best friends I would ever have. We were lucky enough to have her in our lives for 10.5 years. She was known for her larger size, slobbery kisses, loud snoring, and love for sunshine. Luna was one one-of-a-kind and will hold a special place in our hearts forever. I hope she is basking in the sun across the Rainbow Bridge. We will love and miss you forever, beautiful girl.
