

Maddie Louise Snider

June 14, 2004 - May 24, 2019

In Memory of Maddie Louise:

June 14, 2004 to May 24, 2019.

We rescued Maddie on June 14, 2011 from a high-kill shelter. Her previous owner had passed away and the family dropped her at the shelter. We first saw Maddie on the shelter's Web site and that day took the long drive to Guernsey County to see her. We fell in love with her immediately, but wanted to be fair and see the other adoptable dogs. As they put her back in her pen and we started to walk away, she let out the loudest howl telling us to come back. At that exact moment we fell in love with her. Someone else was interested in adopting her, but the shelter chose us.

Maddie brought excitement into our house. She was very spunky and made it known she was queen bee. She had a few nicknames which included, Bossy Louise, Miss Wheezy, and Fozzy Baby. In her younger years she would toss a frozen Kong in the air and bark at it expecting her frozen treat to fall out at her command. At times, her howl sounded more like a cow mooing and always made us laugh. She was very loyal when her mom had major surgery and was glued by her side the entire recovery. In her later years, she loved going for wagon rides around the block and sniffing the air while being pulled around.

Her best friend was her little brother Baxter. She would entice him to play with her and they would chase each other around.

Maddie loved mealtime and would bark at us to hurry up and feed her if we weren't moving fast enough. She loved having her nightly "cookies" (carrots) and enjoyed scrambled eggs. She also loved being brushed nightly, having her ears rubbed, and napping on her cot. She is truly irreplaceable and we will cherish the memories we have with her.

We will forever miss her. Rest In Peace sweet Maddie Louise.

Love,

Mom, Dad, Chompy, and Baxter

“ I will miss Maddie. I remember how she used to "guard" me from the other dogs when I watched them so Jess could get some sleep (when she worked nights). She was the queen.
