

Madison Jo Ellen

March 16, 2003 - January 7, 2020

Madison is our little angel. We went to see the litter of Lhasa Apso pups in April (they were born on March 16th) where they were being raised in a home with young kids, making them extremely social. They all greeted us, but Maddie immediately began chewing on Bill's shoe laces and made it clear she was selecting him. We brought her home on Mother's Day and she made it very clear that Bill was her person. She really only liked sitting on his lap and he spoiled her endlessly. Maddie delighted in chasing squirrels, playing in any and all mud she could find, romping in snow, eating venison her daddy brought home from hunting, attacking the TV when any animal came on (we could not watch Nat Geo or any other animal show) and making it clear that she ruled the household. When Bill passed away, she was crushed as no one could take his place in her world. She's on his lap forever now.
