

Marlot Prettner

July 14, 2012 - December 20, 2021

I caught Marlot in someone's backyard as a sick, abandoned 1 month kitten. It took several trips to the vet, but she became a healthy and spunky young adult. We became the best of friends and she was always in the kitchen with me as my sous chef. We were inseparable and always excited to see each other. From the day I rescued her, she has been my number 1. Our friendship was one in a million.
