

## Mary Harmon

February 1, 2022 - May 2, 2022

I admitted Mary and the rest of her litter into the rescue I help run. She was covered in fleas and ringworm, and overloaded with parasites. Nevertheless she was perfect. Mary was the biggest and the bully. She was with the rescue for 2 months, with no interest, so I took her home to foster. It took 2 days of having her to fall in love. I loved every minute of her finding her hound voice and wrestling with my dogs. She will forever be a part of my pack.
