

## Mimi Huynh

March 1, 2003 - May 26, 2020

My pet named Mimi Huynh, from my name Luyen Huynh. She was born on March, 2003 in Houston, Texas. I adopted her when she was one month old golden retriever puppy. After 17 years she left us for ever in the comfort of her home. When Dr Jennifer Bell came, Mimi kissed her hand and slowly returned to me ( she could not walk because of her hips and the cancer she got 3 years ago ), looked at me tenderly “ grand pa, it’s time to go. Seventeen years is a long time. Please let me go”. When she went out in a stretcher, the vet covered her with a blanket. I will never forget this beautiful gesture. I could see her closed eyes, as she was sleeping a thousand times before, but this time, the one and only sleep for a thousand year.
