

Molly Spring

March 20, 2008 - February 20, 2018

Molly was not only a nine year old Beagle, she was a floor vacuum, a trusty sleep companion, a watcher of trees, a family member, and best friend. Her incredibly unique personality seemed to only shine in the sole presence of her immediate family--and how blessed we were to have such a fun-loving dog. After a nine month battle with Lymphoma, Molly was put to rest on February 20, 2018 under care of her primary veterinarian and vet tech, and comforted by her mom and dad. Her "big sister" said a difficult goodbye two hours prior. Molly's "big brother" was a familiar face to her, however, he was away at college throughout her life until moving out of state. On behalf of our family, friends, and Molly herself, we would like to thank Healthy Pets of Wedgewood Veterinary Clinic for the lifelong love and care they gave her. Lastly, we tremendously appreciate the honoray business and condolences from Schoedinger Pet Services as soon as our cherished Beagle passed away. We will love and forever remember the paw print Molly left on our hearts.
