

## Mozart Wang

November 27, 2023

We brought Mozart home from Petsmart in Dublin in September 2012. At just two months old, he was small and skinny, but we immediately felt a strong connection with him. Originally named BooKitty by the shelter, when he first entered our home, he hopped onto our piano, creating music that led us to rename him Mozart. Our daughters, especially, adore him and delight in playing with him.

Then, in early November 2023, Mozart fell ill. His gentle nature and spiritual presence endeared him to us even more. Initially, he struggled to walk, and eventually, he lost the ability to move altogether. Despite his condition, he never once made a mess in the house, showing his resilience and determination.

Caring for Mozart deepened our affection for him. We believe he has transitioned to a better place. His presence taught us to appreciate the preciousness and unpredictability of life. In his memory, we will cherish and show kindness to every living being around us.

Best Regards,  
Henglin & Jing
