

Murdo Morris

April 1, 2021

We picked up Murdo running loose on a high speed highway in Western Iowa - already an adult, no tags, no microchip. He was running with his best friend, a beautiful Husky, also no tags, no microchip. We lost the Husky, Wanbli, last year. The both were neutered in Nebraska, and joined our family of one other dog, Melitta, who we lost a few months ago, and several cats.

These 3 dogs, known as The 3 Amigos, at daycare, had wonderful lived!
