

Navarro Tasner

May 7, 2013 - July 30, 2019

We had Navarro since he was 8 weeks old. By the time Navarro turned 3 months old he chose my youngest son as his master. My son lost his hearing when he was 17 months old, and did not regain it until he was 24 months old. My son was 2 1/2 years old when we got Navarro. They were best friends. Navarro was so patient with my son and protected him. Navarro was also a father to 32 puppies, two which I kept. He adored his kids, loved them from the moment they were born. He waited outside the door as the mother had them. He never hurt his puppies, and was a great Dad to the puppies I kept. He favored his daughter Quinn over his son also, Quinn's full brother. We miss him dearly. He was an old soul.
