

## Patches Laughlin

September 25, 2021

Patches was found by her Mama in the wilds of that state up north in the summer of 2008. She relocated to Ohio and has been a Buckeye ever since. She loved her Yorkie fur friends Sophie, Mister Buckeye and Lulu. She actually acted more like a dog than the dogs. She came when you called, loved people, was very affectionate and herded her people where she wanted them to be. A very vocal kitty, she purred and mewed and would talk with you too. Patches was also known as Baby Kitten. She was loved dearly and is missed so much! She left us far too soon, but we were honored to be her people for so many years!
