

Patches Manning

December 9, 2009 - August 24, 2022

Patches was a good girl who liked chasing birds and eating everything she could. She was the strongest dog we've ever had. Her favorite food was steak and she didn't like peas. She could always tell if you were sad or sick, and she would lay with you to comfort you. When she was diagnosed with bone cancer, she never slowed down until the end. We love you and miss you.
