

## Penny Gillenwater

October 19, 2010 - December 18, 2023

Penny was in a litter of 4 newborn kittens dropped off at Kitten Welfare. She came to live with us in Dec. 2010 when she was weaned. Penny had a calling on her life. She had a deep curiosity in her soul. I started chemo for cancer in 2018. She would lie on my stomach several times a day, usually about 6" from my face making complete eye contact. She gave me great comfort her final years. Her departure has been devastating. She fulfilled her calling.
