

## Pepper Debney

July 16, 2009 - July 29, 2021

We were asked by a friend to keep Pepper for her for just a few months while she moved. I was a little leery at first since I did not consider myself a chihuahua person but wanted to help a friend.

I took some time off work to get him acclimated and fell in love with him immediately. He was such a sweet, grumpy goofball - he made our house a better place to be. Months went by and we were very sad when his owner said she would be taking him back. We said our teary goodbyes and knew we would miss him terribly. Just 3 days passed when his owner reached out to tell us that Pepper was incredibly sad and thought he should come live with us forever. We could not be more excited! We met her that night and Pepper jumped into my arms and the rest was history.

Pepper made such an impression on us that we eventually adopted two more chihuahuas. As the years passed, Pepper got older, slower and a little grumpier but oh how we loved him still. When the day came that we had to say our goodbyes, our whole family was heartbroken. Our busy home just feels so quiet now without him.

Pepper changed our lives with his big blue eyes and bigger than life attitude, and we will miss him every single day."
