

## Petey Dawson

November 28, 2020

Petey Dawson

Petey was our little oddball. He was brought in rescued from a terrible situation and immediately surrounded by love and family. He was the most loyal and gentle boy you would ever meet. He fell into routine with our family and other dog Bella. When Daryl came along he welcomed him as a brother and all three dogs became incredibly close.. Petey was a member of that pack. Dubbed as the stinky boy and the snorter you always knew when he was in a room. He always had a goofy look on that face to cheer you up at any time. He broke down barriers of "personal space" and had kisses and snorts for anyone he came in contact with.

Petey, as a pet maybe would be viewed as something we could save or help but looking back I really think Petey saved and helped us more than we realized.

We will always miss him and the love and loyalty he gave our family and friends over the years will never be forgotten. He was a joy to our family and in every sense of the word he was a good boy, possibly the best boy and our hearts are hurting without him but our souls are peaceful knowing he is pain free and more than likely snorting and running around in doggie heaven.

Petey was not "just a dog" he was and will always be our family.
