

## Reba Howbert

May 18, 2016 - March 24, 2021

Reba had the love of her mommy and daddy from the moment they met her, before she could even open her eyes. She was smart and loyal. She loved car rides, playing with her toys, cuddles, and sleeping in between her mommy and daddy. She loved her kitty, Mitzy, whom she is now reunited with across the rainbow bridge. She was lovingly known as Reebies. She was one of a kind and will be missed so very much.

“ You were the light of mommy's life. We fought so hard to have a place for you in the beginning because I just had to have you. You gave me the best 5 years. For the first three months when i broke my foot it was just you and me. I will miss your excitement when I would get home from work. I will miss car rides to the drive thru and to visit mawmaw. I will miss your cuddles when I was sad or sick. I will miss playing with your toys and keeping me and daddy away from each other. I will miss you nudging my hand if I wasn't petting you. You were the smartest best dog ever. None will ever replace you. You were taken way too soon and my heart is broken. Mommy will miss you Forever my sweet Reebies.

“ Gonna miss our alone time rides to Tim Hortons, and how excited she would get when we pulled in to the parking lot. Her laying with her daddy, taking care of me when I didn't feel good. Protecting me, and keeping mommy from loving daddy.
