Remi Nail

Gotcha day Feb 27, 2017 - Oct 26, 2022.

Remi was very loved by her Family. We adopted Remi Feb 27, 2017 from a friend that was unable to keep her. She was so tiny, about 9 to 10 weeks old, and could fit under the sofa. She quickly stole our hearts. She would wait at the top of the stairs when I got home for a handshake, high five & a hug. It didn't matter what or how much you had in your hands She came first. She knew the sound of everyone's trucks and could hear them on the next street. She knew when her Daddy got home from work and would wait at the window until he pulled in the driveway, then she'd run down the stairs to get outside to greet him at the fence then race him inside and wait in her chair for him to pet her. She had to cuddle every day with me in my chair. She slept in everyone's bed every night. She start in our room, then make her rounds to her boys. She always had to be touching someone at night. She would come in from the cold and dig the blankets until she got under the covers and could snuggle up and wake you with her cold nose or paws. She was so unlike any of our other dogs. She was terrified of loud noises, thunder, fireworks and would wake her Daddy up to go sit in the living room with her and watch tv until it was over...Many sleepless nights with her.

Remi we LOVE you so very much. You'll always be in our hearts. And we will never forget you. Until we meet again Sweet Remi.
