

Remington Caesar

May 26, 2018 - April 14, 2025

In loving Memory of Remington-

Our beautiful goofy Bernese Mountain Dog Remington left our world for the Rainbow Bridge on April 14, 2025 at 4:15pm. I imagine him running to the bridge to his brothers Timber, August and Cledus. No longer held back by his failing body. He was diagnosed with Trigeminal Neuritis (a disorder that resembles Bell's Palsy in humans) earlier in the month which was getting better at the 2 week period. His bottom jar dropped and hand feeding him and syringe feeding water in was going nicely. There were high hopes that he would make a complete recovery but there were other things working on him which couldn't be diagnosed. We think a tumor in his head. He enjoyed walking along with his mom and dad on walks, beach trips, mountain trips, BMD Specialty trips, Pontoon riding and camping with his family at the river. He talked till the cows came home! Especially when we were watching a movie. Even when sickness came after him- he would still be talking to us. Til the day he left us- he was telling us like it was.

I imagine that he is rolling and playing with his brothers at the bridge. We loved him so and miss him greatly. The house is too quiet!

He leaves behind his Berner brother Ryder, sister kitty Ruby Jean, Mom and Dad. We would be amiss not to mention his girlfriend (Yellow Lab) Ellie. Ellie-

the neighborhood girl behind us that he loved to talk to.

Mom and Dad Becky and Jim Caesar
