

Ripley Goyette

September 19, 2007 - January 1, 2025

Ripley was a handful right from the get. Always looking to be up on the highest point of every room she entered, nicknamed “weird little goat” after watching her climb up curtains onto the highest balconies. If you brought home a tree from Christmas she’d be in it as soon as you’d get it in the door. She traveled to five different states and so many cities threatening birds along the way. She loved anything dairy and would pull your cereal spoon out of your hand to get at that milk. She was spoiled with any and all manner of treats as deserving of her royal status. She was the bright spot at the end of a hard day. She was with us for over 17 years and in that time made a lot a people laugh and gave a lot of good hugs. She was a very good bad cat. She is survived by her brother Scratch Beauregard, and her human mother, who miss her very much.
