

Rocko Riley

October 6, 2018

Rocko was a very beloved pet who has been a long time family member. He has been with us through many life events including first moving into the house, becoming acquainted with his new pet siblings and the addition of our first baby boy!

Rocko always had a very adventurous side to him and loved the outdoors. He had strong jumping abilities and would balance himself perfectly on a small square inch of the banister post and show himself to be the perfect pouncer. He attempted jumping over the fence in the backyard 3 times, and was successfully found after some searching. However, he was not allowed back outside after that heist! So, Rocko would often longingly look outside and yearn to be there.

Rocko definitely had a feisty side to him and you could always tell by the look on his face what type of mood he was in. In his spare time, Rocko loved to lounge around on rainy days, stare out the window and watch for squirrels and show his dominance with his siblings. Oh how we'll miss his company so much.
