

Rocky Toth

August 19, 2008 - March 15, 2022

Our pug Rocky was the lifelong companion of his brother, Beanie. Rocky gave so much love to everyone he met. He had a full life as a therapy dog, who visited schools and libraries as a reading buddy. The kids loved Rocky and his smile and he loved them. Rocky was a gentle pug with a loving nature who loved to be petted and get belly rubs. After Beanie died Rocky missed him very much. We are now comforted to know they are again snuggling together.

Tribute Wall

PA

“ Rocky was the sweetest pug ever. He was so gentle with the children who read to him. They would touch his ears, mouth and eyes and he would allow it. Sometimes he would sit next to them and give them a little kiss on the cheek. Mostly he sat quietly, listening. Never judging. He especially loved the Piggy and Gerald books by Mo Williams. I hope he helped children love to read and love books as much as he did.
