

Rosie Mayberry

March 16, 2020

Rosie was left tied in a backyard to starve to death when the family moved away. The next door neighbor took her in and posted an ad to find her a home. I answered that ad and had 12 wonderful years with this happy loving yorkie poo mix of a dog. She greeted everyone with smiles and wags of her little stub of a tail. She was the matriarch of my pack of 3 Bichons and they miss her and still look around as if trying to see where she is hiding. We all miss her and look forward to meeting her again when our time comes.
