

Ruby

January 25, 2018

Ruby was 4 years old when we adopted her. She was at Columbus State Community College and I was a student in the Veterinary Technology program. I fell in love with her sweet personality and knew she belonged with us. She was afraid of just about everything since she had never lived outside of a cage. Ruby had no idea what toys were or what cuddling on the couch was. It took over a year for her to start playing and even longer to get up on the furniture for a nap.

She loved kids and was so good with them. Everyone who met Ruby loved her! I miss her so much but feel so blessed to have known her for 12 1/2 years.
