

## Ruby Maye Saunders

December 5, 2017

Ruby Maye came into my life on 7/28/14. She was emaciated, scared, and confused, but she walked into my home and my heart and we never looked back. From 72 pounds to 140, she never missed a meal or a treat. She loved everyone she met when she had no reason to trust. Asking her if she wanted to go to work with her mama made her day! Sadly her body just wasn't on the same timetable I was. People say I rescued Ruby but in fact she rescued me. I will love and miss you forever Big Mama. You left paw prints on all of our hearts!

AS

“*Ruby was the greatest companion for me at the office, she was so excited to come and hang out with us all day at work. I am going to truly miss my work buddy but knowing that she is in the company of many wonderful people and pets, I am happy for Ruby Maye, she will be waiting for us!*”
