

Scruffy Plummer

October 1, 2004 - September 26, 2018

A family from church needed to find Scruffy a new home, so they had a picture of him on the bulletin board so I went and got him.

He was my passenger on all my trips to Missouri and such a great car rider. He always went with me everywhere I went.

In his later years, he became diabetic and had cataracts in both eyes and I took very good care of him. Surgery on his eyes. I loved him so much I did everything I could to keep him as long as he wasn't in pain.

He was my constant companion.
